DESCRIPTORS Agricultural Occupations; *Agricultural Production; *Agriculture; *Expenditures; *Farmers; *Income; *Land Use; Off Farm Agricultural Occupations
IDENTIFIERS *Farmland

ABSTRACT

This report presents agricultural information for each of the 50 states and the United States. Data are provided on population, land use, agricultural production, farm income, value of assets on farms, and selected characteristics of farms, such as size, tenure, and farm organization. Primary data sources are the 1982 Census of Agriculture and the 1984 "Economic Indicators of the Farm Sector." Data are presented first for the United States and then for the 50 states, in alphabetical order. The information is grouped into 21 sections: general (population, total land area, percent in farmland), farmland use, farms by size, agricultural universities, farmers, tenure of farmers, farm organization, major commodities produced (1984), major U.S. export commodities (1984), farms, farm acreage, cash receipts from farm marketing, government payments, other farm income, farm production expenses, net farm income after inventory adjustment, total assets, total debt, equity, top five counties in agricultural sales, and state statistical office phone number. U.S.-State Agricultural Data. By Letricia M. Womack, Larry G. Traub, and Mary H. Rivers. National Economics Division, Economic Research Service, U.S. Department of Agriculture. Agriculture Information Bulletin No. 501.

ABSTRACT

This report presents agricultural information for each of the 50 States and the United States. Included are data on population, land use, agricultural production, farm income, value of assets on farms, and selected characteristics of farms such as size, tenure, and farm organization.

The primary data sources are the 1982 Census of Agriculture and the 1984 Economic Indicators of the Farm Sector, published by the Economic Research Service. Unless otherwise stated, data are for 1982.

Keywords: Farms, farm income, equity, production.

ACKNOWLEDGMENTS

The authors wish to acknowledge with thanks the assistance of Lewrene Glaser.

Additional copies of this report. . .

can be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402. Specify title and order number (001-019-00479-7) in your order. Write to the above address for price and ordering instructions. For faster service, call the GPO order desk at (202) 783-3238 and charge your purchase to your VISA, MasterCard,, Choice, or GPO deposit account. A 25-percent bulk discount is available on orders of 100 copies or more shipped to a single address. Please add 25 percent to cover postage to foreign addresses.

Microfiche copies ($5.95 each) can be purchased from the Order Desk, National Technical Information Service, 5285 Port Royal Road, Springfield, Va 22161. Specify title and series number. Enclose check or money order payable to NTIS; add $3.00 handling charge for each order. For faster service, call NTIS at (703) 487-4650 and charge your purchase to your VISA, MasterCard, American Express, or NTIS deposit account. NTIS will ship rush orders within 24 hours for an extra $10; call 800-336-4700.

The Economic Research Service has no copies for free mailing.

NOTES AND REFERENCES

The information has been grouped into 21 sections. Each note provides further explanation.

Section I

Population figures are based on a final estimate from the 1980 census.

Section IV

The figure for percentage of farmers with nonfarm occupations represents farmers spending more than 50 percent of their worktime in 1982 in occupations other than farming or ranching. The remainder are farmers spending 50 percent or more of their worktime in farming or ranching. Percentage of farmers with nonfarm income represents farmers who, on the 1979 Farm Finance Survey, indicated that they earned income from a source other than farming or ranching. This survey is a followup of the 1978 Census of Agriculture. More current figures are not available because they were not collected in the 1982 census.

Sections VIII, IX, and XII-XIV

Data for sections VIII, IX, and XII-XIV are taken from the 1984 Economic Indicators of the Farm Sector published by the Economic Research Service. Commodities specified in section IX are the top five commodities exported from the United States. Data on cash receipts are that State's receipts including net Commodity Credit Corporation loans, for those commodities.

Sections XIV, and XVII-XIX

Other farm income presented in section XIV includes nonmoney income and other farm income. Data in sections XVII-XIX include operator households. Nonreal estate debt presented in section XVIII includes nonreal estate debt and Commodity Credit Corporation loans.

The location of each county seat was obtained from the 1981 World Almanac Book of Facts.

Section XXI

Additional information about a State's agriculture can be obtained from that State's statistical office. See the U.S. data sheet for a list of Federal agencies to contact for additional data on U.S. agriculture.
